

NEW i-Spector Flex

NightSearcher

Rechargeable LED Inspection Light

The i-Spector Flex is a rechargeable LED inspection lamp with a 360° flexible arm that fits into and illuminates even the most difficult-to-reach spaces. Perfect for under-bonnet inspection, the i-Spector Flex has a strong magnetic base, a hanging hook for hands-free work. The rotating dimmer switch allows the light to be easily adjusted from 50 to 500 lumens.
